

Section 111 System Review

Enhance Efficiency and Quality of Reporting

Our Section 111 System Review service provides an essential wellness check, evaluating your current workflows and recent reporting data to identify and help minimize your potential exposure to impending Civil Monetary Penalties (CMP). Proposed penalties can add up fast, and include areas such as exceeding error tolerances, late TPOC reporting, and incorrect ICD codes resulting in erroneous conditional payment letters. The time to shore up your Section 111 program is right now.

Internal Claims Review

The **IMPAXX** team reviews your internal claims system for the following:

- Ongoing Responsibility for Medicals (ORM) reporting dates
- Total Payment Obligation to Claimant (TPOC) reporting dates and amounts
- Diagnosis codes used for reporting
- Settlement documents, court orders and pleadings for ORM / TPOC dates and amounts

An important resource for identifying inefficiencies and irregularities that neither Medicare nor your vendor will identify for you.

Helping You Navigate the Reporting Process

Guidance

Education and training on Section 111 Reporting and MSP Compliance

Recommendations

Review of protocols and processes to determine best practices

Documentation

Detailed report of findings, highlighting areas of concern and opportunities for improvement

Our Experienced Team is Here to Help
