

Conditional Payments & Lien Resolution

Reduce Unnecessary and Unexpected Reimbursements to Lien Holders

IMPAXX provides a comprehensive solution by identifying the payments Medicare or other potential lien holders may have made associated with a claim. This can sometimes include negotiation of the lien and aggressively disputing charges that should not require reimbursement. Our conditional payment and lien resolution team not only pinpoints and addresses existing liens, but also makes recommendations to reduce a primary payer's future exposure.

Consultative Approach

We take a consultative approach and partner with our customers to tailor any of our existing programs to best suit their unique needs. Our process includes:

IMPAXX can assist in collections by identifying and disputing non-compensable services. Since 2016, our customers have experienced more than 60 million dollars in lien reductions.

- In-depth analysis of all dates of service and diagnosis/CPT codes
- Identification of charges that should not require reimbursement
- Creation of all disputes and appeals addressing conditional payments identified, including any services unrelated to the covered injury, illness, or condition
- Aggressive negotiation regarding all identified and unrelated conditional payments through all levels of appeal until resolution
- Successful reduction of U.S. Treasury collections

Additional Lien Resolution Services

In addition to reimbursement requests associated with the Medicare Secondary Payer Act, **IMPAXX** also investigates and negotiates liens associated with Medicaid/MediCal, Medicare Plans Part C and D, and Veterans Administration.
